

Consolidated Pressure Control

CPC Oilfield Private Limited

Product Catalogue

Consolidated Pressure Control (CPC) manufactures a diverse range of oilfield equipment at its facilities in India, using the latest technology and experienced engineers. The manufacturing facility covers a vast area of 50,000 sq. ft. and is equipped with CNC machines with 5-axis control, a CMM machine and the latest high-accuracy measuring instruments calibrated to national and international standards. In-house product assembly, high-pressure hydro testing, surface blasting and painting are all performed under one roof.

Manufacturing capabilities

- Latest technology CNC machines
- In-house forging facility
- In-house heat treatment facility with a capacity of 18,000 tons per year
- Testing facility with high-pressure hydro testing
- Quality control with CMM and calibrated instrumentation
- Specialized coating, surface blasting and painting

Product range

Product	Notes
BOP Accumulator Units	Reliable control of the BOP stack with emergency reserve
Plug Valve	
Tee	
Pup Joint	
Cushion Tee	
Adjustable Choke Assembly	
Swivel Joint	
Elbow	
Adapter Crossover	
Choke Saver	
Hammer Unions	
Ring Joint Gaskets	R, RX, BX styles; oval / octagonal profiles

All products are supplied with complete material certification and full traceability, in line with our ISO 9001:2015 quality management system.
